

Barrel-Art Decorating Tips

Natural or rustic decor is currently very popular and it can be fun and inexpensive. Natural elements can be found almost anywhere. Use our [Barrel-Art Lazy Susan](#) for a beautiful and rustic centerpiece. You can also use fruit or flowers on one of our [serving trays](#) as a centerpiece, both will add the perfect rustic touch for almost any occasion. A walk on the beach can also provide great elements.

If branches and shells are not for you but you want to bring a bit of nature to your space, use flora & fauna prints on fabrics, artwork, or [Adirondack rocker](#) would add an air of sophistication to this classic beauty. Simple house plants are another great accent. Arrange plants in different sizes on our [side table](#) and you will add the perfect amount of natural character to any space.

Not all “natural” looks have to be authentic. Arrange a faux cowhide rug over our [barrel coffee table](#) for a rustic look perfect in a mountain cabin or downtown condo. You also don’t have to go 100% cabin or farmhouse with your look. Use our [Barrel table](#) with contemporary bar stools for a dramatic and fashionable look.

Even in a thoroughly modern space a rustic touch can introduce a balance to a sleek surface or angular corners. In a modern bathroom, our [stave bench](#) will provide a natural flair against ceramic tile floors. The bench is also the perfect spot to store towels and other bath accessories.

Art is another way to add a beautiful natural touch. Our barrel hoop [music note](#) or barrel [hoop sun](#) both would add a dramatic flair to any room and is a simple way to add a rustic accent.

A variety of styles and artistic details can create rooms that please on every level. On a chilly day a rustic room can be a perfect cozy retreat. Use our [Barrel-Art flight](#), while seated by our [Barrel-Art fire pit](#) and you’ll have the perfect rustic feel.
